EDUCATION

VIT-AP University, Amaravati <i>B.Tech. in Computer Science and Engineering CGPA: 7.64/10</i>	2023 – 2027 Andhra Pradesh, India
Delhi Public School, Kalinga <i>Class XII Percentage: 75.8%</i>	2022 Phulnakhara, India
Delhi Public School, Kalinga <i>Class X Percentage: 93.4%</i>	2020 Phulnakhara, India

PROJECTS

CineVerse | *HTML, CSS, JavaScript, Gemini API, TMDB API* 🔄 | 🔗

- Built an AI-powered movie discovery platform featuring **Why You Should Watch**, providing personalized explanations of why a movie or show may appeal to the user.
- Developed **Movie DNA**, an AI-based content profiling system that analyzes genre, themes, mood, storytelling style, and overall viewing experience.
- Implemented **mood-based movie recommendations** using the Gemini API to generate personalized suggestions aligned with the user's current mood.
- Integrated movie-data APIs with the **Gemini API** to deliver dynamic content discovery and AI-generated insights through a responsive web interface.

Taskflow | *HTML, CSS, JavaScript, Gemini API* 🔄

- Developed a responsive **task management application** to organize, track, and manage daily tasks through an intuitive web interface.
- Implemented interactive task management functionality using **JavaScript**, enabling users to create, update, organize, and track tasks efficiently.
- Designed a modular frontend architecture with reusable **components, sections, services, scripts, and styles** for maintainable development.
- Built a responsive and user-friendly interface focused on improving **productivity and workflow organization** across different screen sizes.

Technical Skills
